

Forest & Landscape College

GIS and sustainability

Klaus Agerskov

UAV pilot and GIS technician

Forest and Landscape College UCPH

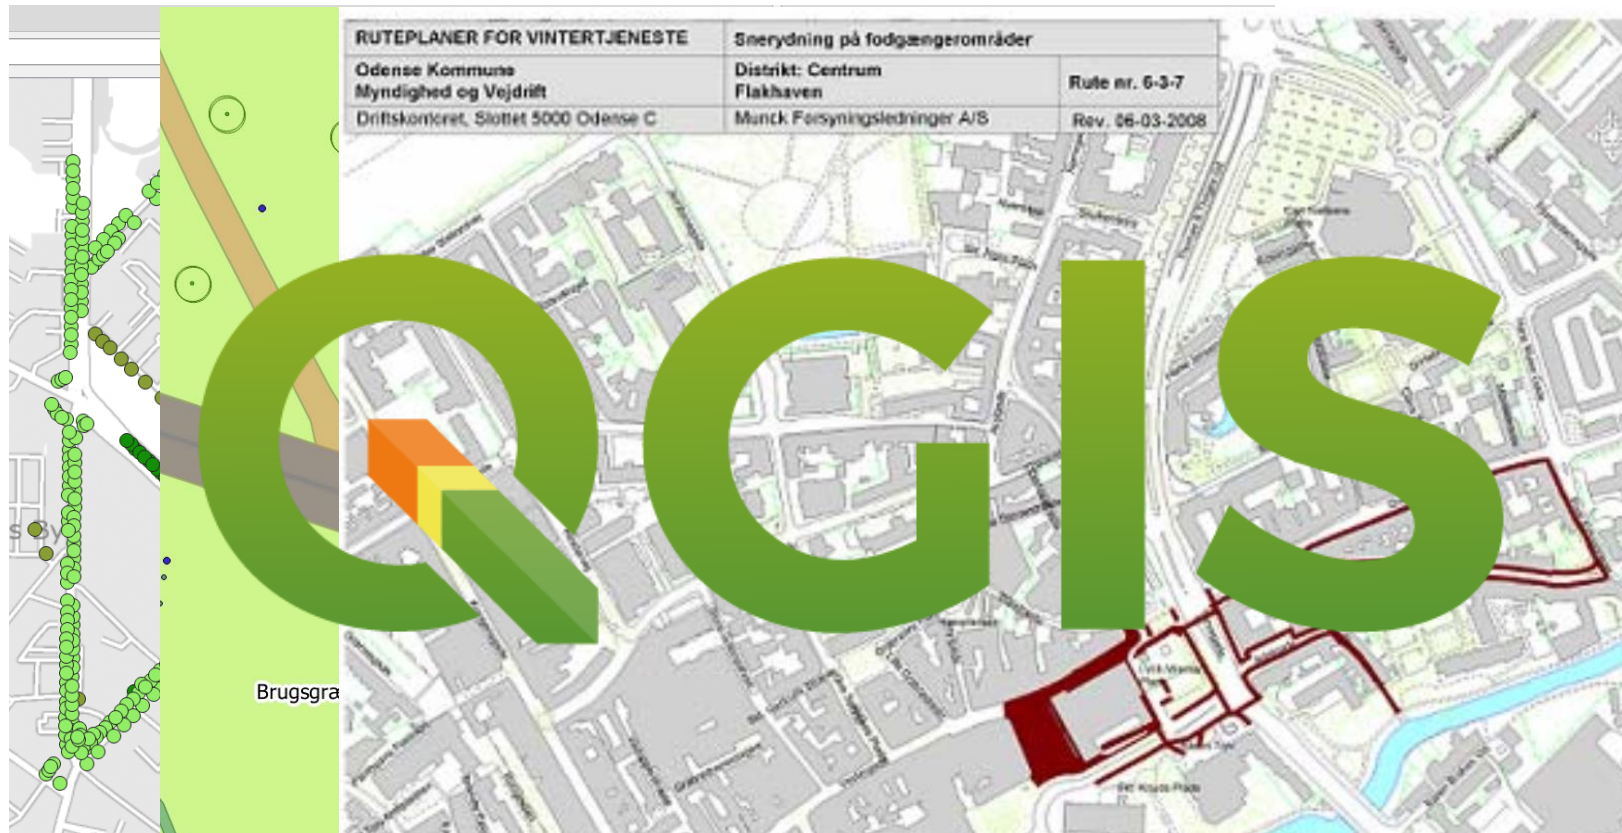

Nødebo d. 21. august 2018

Dias 1

What can GIS do for us?

- GIS can save information according to a location (attributes)
- GIS can help with an overview of the green inventory
- GIS can help in the planning of routes (water, grass, snow)
- GIS is a powerful tool in the toolbox
